YOUR SOLUTION LIES HERE.

CUSTOM SOLUTIONS

- MATTRESS ENCASEMENTS
- DUVET ENCASEMENTS
- PILLOW COVERS
- FITTED SHEETS

Environmental pollution among other causes has made people increasingly sensitive to outside influences and stimuli thus increasing allergies. The onset of age has its own set of health problems.

Also, now more than ever we are plagued with outbreaks of pests that even invade our own homes. Very few options can provide you with quality protection for all such instances let alone ones that can be found close to home and within budget.

flexible solutions for your comfort needs

ULTIMATE BEDDING CO.

Creates and manufactures encasements for mattresses, box springs, pillows and duvets that are safe, healthy and affordable. Our encasements are liquid, and odor resistant, they also prevent allergens and bed bugs from entering your mattresses.

Made from 100% *breathable cotton*, they are easy to clean, and more importantly, you or your guests will leave feeling refreshed and restful. Your family will feel more comfortable knowing you have taken the extra steps to protect their beds.

At *Ultimate Bedding Co.* we never compromise on quality. We set new innovative standards that demonstrate Ultimate Bedding Co. products to be superior in comfort, technology and efficiency.

ULTIMATE BEDDING CO.

A Mattress is like a sponge absorbing all fluids and odors within its lining. Our encasements prevent the infiltration of any liquids or odors from entering your mattresses, pillows and duvets while utilizing custom made fabrics guaranteed for your comfort.

A good night sleep is essential to a healthy lifestyle. *Ultimate Bedding Co.* knows that sleep quality lies in our bed products, literally.

Our custom woven, smooth fabric is durable, breathable, waterproof and stain resistant. Proprietary fabric technology incorporates our micro-pore fabric and interior encasement barrier insuring advanced protection from accidents that may occur.

BED BUGS

While feeding, they inject a tiny amount of their saliva into the skin. Repeated exposures to bed bug bites during a period of several weeks or more causes people to become sensitized to the saliva of these bugs; additional bites may then result in mild to intense allergic responses.

DUST MITES

For most people, while they are disgusting, house dust mites are not actually harmful. However, the medical significance of house dust mites arises because their microscopic cast skins and feces are a major constituent of house dust that induces allergic reactions in some individuals. There is a genetic predisposition to dust mite allergies, but like many allergies it can also develop over time.

SEALED PROTECTION

Because our smooth fabric is durable, breathable, waterproof and stain resistant, you can feel protected against anything trapped in the mattress or protect your mattress from any odor, fluid or liquid absorbing into your mattress. This also provides protection from incontinence and/or children's spills and bed wetting.

WE'VE WORKED WITH MANY HIGH-END HOTELS. HOW CAN WE HELP YOU?
